BENTENTIAL ANALYSIS vs. COMMON SENSE. SENTENTIAL ANALYSIS VS. COMMON SENSE.

To the Editor of The Tribune. Sir: In a recent communication in your paper headed "Cramming," the study of sentential ar was alluded to. Will you be kind enough to tell us what that is! I went through college and never heard of it. It must be very important. My boy had been some years in the public schools, but was backward in arithmetic, and especially inferior in penmanship. I called upon the teacher, and asked if he could not give my son a special drill in these two studies. He replied that he would cladly do so, but the rules of the school ferbade it; beside, if his boys were put upon a special course, his "grade" would be broken up, and his examination endangered. He gave on the average one hour a week to writing, and ten to "analysis." The system rendered this disproportion necessary; for while the examiner was indifferent as to penmanship, he was very exacting as to "analysis." My son, after leaving school, obtained a situation in a store. He was obliged to leave after a week's trial, on account of his inferior handwriting. It was a long time before I could get him another situation. A study which receives in our common schools tenfold more time than one so easential as the use of the pen should be exceedingly inportant and very useful. Dees "sentential analysis" prove of such value? And it so, how! Please enlighten me, and thereby oblige a New-York, Dec. 12, 1850. was alluded to. Will you be kind enough to tell us what

"Old Tostament Shadowa," &c. Crown Svo. Cloth, &7.
"The selection is made entirely from Mr. Beecher's writings, and is published with his approval. No man has done so much to change the religious experience of the age from an atmosphere of awe to that of love, and no one is so fit at once to speak to the heart of the present day, and to interpret it. The selections cover a wide scope, as does their author by the universality of his sympathies and his peculiar combination of temperaments; and there is scarcely any experience which will not find in this book of devotional exercises something of confort, of strength, or of mayiration."

"Of all stories for chikiren we have ever read, we think this collection "Of all stories for children we have ever read, we think this collection to be the cheeriest, sprightlest, and most vivacious. Hamor is not ordinarily characteristic of fairy stories, or is at best of the most grotesque description. But these stories are told in a certain rollicking style, and with a curious admixture of the affairs and language of everyday life with that of the fairy world, which is very fuury. The description, in the story of "The Four Pigs" of their housekeeping is a capital example of a good grotesque. The covert meral in the stories does not burt their artistic effects—gather helps it." tic effect-rather helps it."

The stock market, though active throughout the day was less excited than yesterday, and the dealings was weak, but soon began to improve, and with occasional reactions grew stronger as the day advanced, being no doubt aided somewhat in the afternoon by the favorable bank statement. The shorts, being apparently unwhiling to leave their contracts open over Sunday, covered heavily, and the latest-prices were about the hest of the day. The rally in prices has been quite natural, and was not unexpected, as usually after a sharp decline the buying of the shorts would of itself produce such a result. It is a part of the street gossip that the cliques have been selling North-western and Eock Island stocks for several days to break down prices and to attract a short interest; but we have a faint suspicion that "Ah Sin," the heathen Chinee, has paid a visit to Wall-st., and with his "ways that are dark and tricks that are vain," has worked industriously and successfully in "a game he does not understand." The Bulls this afternoon "went for that heathen Chinee;" but we suspect that he had already safely retreated. The special features of the market to-day were the Vanderbilt stocks—Lake Shore, North-Western, Rock Island, St. Paul, and Western Union Telegraph. Investment shares were steady on a fair amount of business. We note sales of Hannibal and St. Joseph at 195 2100, the Preferred at 1075; Chicago and Alton, 114; Delaware, Lackawanna and Western at 10cf 2017, and Dubuque and Sioux City at 20. There was rather more movement than usual in express shares, Adams selling at 64; American, 455-346, and Wells, Fargo & Co. at #2. The following are the highest and lowest prices pand for active stocks to-day:

The money market has been less active than yesterday and appearances indicate a discontinuance of the artificial means to make the market stringent. The disbursement of the City interest has made the supply of money more abundant, while the further relaxation is due to the speedy abandonment of the device in operation yes-terday, through a wholesome fear on the part of the originators of the scheme lest legal steps should be taken to make the abandonment compulsory. To-day, the early rates on call were 7 per cent, gold, and commissions of 1-16w1 of 1 per cent to turn stocks, though at the close the offerings were liberal at the legal rate, and to the bond dealers as low as 4 and 5. There is nothing special to report in discounts, and rates are nominally unchanged. Contrary to general expectations, the bank statement was favorable, reflecting a large decrease in loans, and a large increase in specie. The interest disbursements for the week were \$849,200, and the Customs payments \$1,432,000. The decrease in the legal-tender item indicates the amount of currency sent to the interior. The movement of the week resulted in a gain to the banks of \$209, 504 in surplus over legal reserve, and they now hold \$9.377,965. The total reserve of the banks was increased \$362,783, while the total liabilities were reduced \$2,188,083. The following is a comparison of the averages of the

The gold speculation continues tame, and the price has ranged between 1104 and 1104, with the majority of transactions at 1104,21104. The latest reports from Europe are to the effect that securities there are strong, with quotations of the securities there are strong, with quotations of the securities there are strong, with quotations of the securities there are strong with quotations of the securities are strong with quotations of the securit tions of 62s at set. In the gold lean market, the rates paid for having balances carried were 7 per cent gold, and 6, 5, 4, and 3 per cent currency per annum to flat. The Treasury, during the coming week, will sell one mil-lion gold on Wednesday, and buy an equivalent amount of 5-20s on Thursday. The shipments of specie are given elsewhere. The day's business at the Gold Exchange Bank was as follows: Gold cleared, \$50,871,000; gold balances, \$2,257,787, and currency balances, \$2,525,147. The following are the quotations:

In Railroad bonds there was an active demand for the Central Pacifics, which advanced to 222 on the liberal purchases of European and domestic capitalists. Union Pacifics were weak and lower, Firsts selling down to 723, though later reacting 1 per cent. A small sale of Land Grants was reported at 67. Firsts of C. C. and I. LINE-THE SELMA, MARION, AND MEMPHIS R. R., AND SELMA AND GULF R. R., AT 95 AND ACCRUED IN-TEREST IN CURRENCY.

TRIEST IN CURRENCY.

This line of railway forms the shortest route from Memphis to the sea, and will command on completion the vast cotton traffic of Alabama and Mississippi, which States it traverses. In addition to this, a large part of the freight by way of the Mississippi River will seek at Memphis the more rapid trainsportation to the sea afforded by these lines.

One hundred miles of this route are completed and show large earnings from way traffic alone. The completion of the enterprise is already assured by the large sales of bonds and liberal subscriptions of town and county aid.

Considered as a railway mortgage alone these bonds are equal to any now in the market. But in addition to the lien on the railway property, the bonds are secured by the obligation of the State of Alabama, indersed upon them, which has been declared by the leading lawyers of New York to be as binding on the State as the currency bonds which now sell on the Stock Exchange above par.
